

Attention Treatment Plant Operators

Let us pump  
your sludge.  
Then you be  
the judge.

Put our pump to the test. There's  
no cost to you. Take the PVP  
Challenge and prove it to yourself.

We are so confident in our pumps' ability to reduce your overall maintenance and labor costs that we will let you take one for a test drive... for FREE. You provide the application and we'll provide the unit. It's that simple! PVP Double Disc®, Positive Displacement pumps feature:

- Seal-less, gland-less, oil-less design for zero routine maintenance.
- Will run dry indefinitely without damaging the pump.
- Passes solids up to 2 inches in diameter and full-line semi-solids.
- Fewer moving parts means less need for repairs or maintenance.
- Patented Maintain-in-Place design reduces downtime and lowers maintenance costs.

Step 1-Suction Cycle.

Step 2-Discharge Cycle.

### The PVP Difference

The repair of progressive cavity or rotary lobe-style pumps can be complex and costly. Our Double Disc® Pump system will operate up to 10 times longer in the same application and cost up to 70% less to repair when the need occurs.

### Swap Your Pump

Install one of our pumps and put it to the test. There's no cost to you. PVP Double Disc®, Positive Displacement Pumps are designed to handle the toughest sludge challenges.
